Office Action Summary	Application No. 10/535,685	Applicant(s) KOTZIAN, GEORG RUDIGER	
	Examiner Danielle Sullivan	Art Unit 4133	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "the two-component mixture of metamifop with benzobicyclon being excluded" is confusing. The combination of metamifop with benzobicyclon is claimed where benzobicyclon is included in the Markush group of b). However, stating the two-component mixture is excluded is confusing and renders the claims indefinite.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim et al. (WO 00/05956).

Applicant's Invention

Applicant claims a composition comprising a mixture of metamifop (component (a)) and a synergistically effective amount of another compound selected from various herbicides (component (b)).

Determination of the scope and the content of the prior art

(MPEP 2141.01)

Kim et al. teaches the compound metamifop (component (a)) (formula (1), wherein $R=CH_3$, $X=H$ and $Y=H$ (Table 1, first listing, page 5). A method of using the compound to control barnyard grass produced from rice is also disclosed (page 1, lines 6-19). The herbicide can be used alone or in combination with other herbicides, insecticides or bactericides (page 21, lines 18-20). It is essential to add one or more agents selected from the 2,4-D and various sulfonylurea herbicides, eg. bensulfuron-methyl, metsulfuron-methyl, amidosulfuron, etc. (page 21, lines 20-28).

Ascertainment of the difference between the prior art and the claims

(MPEP 2141.02)

Kim et al. does not teach the specific synergistically effective compounds or combinations disclosed in claims 1 and 2 (component (b)).

Finding of prima facie obviousness

Rationale and Motivation (MPEP 2142-2143)

It would have been obvious to one of ordinary skill in the art at the time of the invention to combine the teachings of Kim et al. to further include the herbicides disclosed in claims 1 and 2. One would have been motivated to include these herbicides because some are also sulfonylurea herbicides (sulfosulfuron, iodosulfuron, imazosulfuron, etc.) used in the art for the same purpose and different combinations of herbicidal formulations are desirable to decrease resistance.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim et al. (WO 03/037085) and Davies et al. (Review Herbicide Safeners: A Review, 1999).
